

Hospital Provincial Negotiating Team Candidate Article

Name: Cathy Cleverdon

Nominee For: Region 4 Full-Time Representative

I am interested in representing Region 4 on the Negotiating Committee because I want to help advance concerns around working conditions and advocate for the priorities our members want addressed. Our nurses deserve meaningful improvements, and I am committed to being a strong voice in achieving those changes.

I bring with me extensive experience as a nurse, along with valuable union involvement that I believe will help build momentum toward the progress our members are seeking. I understand the realities of our workplaces and the importance of standing firm at the negotiating table.

I continue to be inspired by historic ONA moments and by the members that have helped shape our union. Early in my career I admired individuals who demonstrated dedication and strength in negotiations, and that inspiration still drives me today.

I am prepared to work with the same determination and commitment to help achieve meaningful improvements in working conditions and a better work life for all nurses.
