Unfair Home & Community Care

BETTER CASELOADS, BETTER CARE

Who are we

We are over 6,000 Ontario Health atHome professionals working at 14 branches across the province, currently bargaining a new collective agreement with the provincial government.

The care you need, where you need it

We do the assessments, arrange the care, order the equipment, and coordinate with hospitals so Ontarians get the care they need in their home and community, instead of an overcrowed hospital.

Years of government restructuring and underfunding have resulted in unfair wages that no longer pay the bills, and massive caseloads that leave less and less time for patients.

OHaH professionals are working **longer hours** with **fewer resources** to meet the needs of Ontarians, but they are reaching their breaking point.

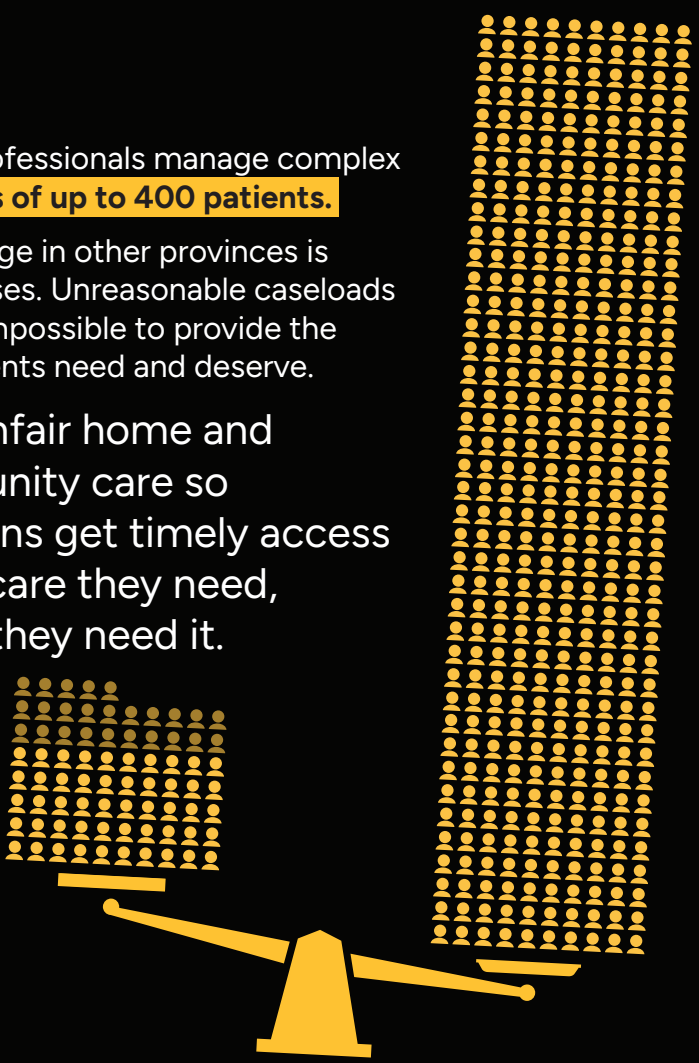

ONA

#FIGHTLOCAL

OHaH professionals manage complex **caseloads of up to 400 patients.**

The average in other provinces is 50-75 cases. Unreasonable caseloads make it impossible to provide the care patients need and deserve.

Stop unfair home and community care so Ontarians get timely access to the care they need, where they need it.

BETTER CARE STARTS AT HOME
